Spain

2002

Bob Trubshaw

In February 2002 I flew out to Malaga to stay with friends of Elizabeth, my then-partner.

Those friends took us to El Torcal de Antequera and Laguna de Fuente de Pienta.

Then Elizabeth and I took the coach to Granada.

These photographs were taken on Olympus OM1N cameras using Fujichrome ISO 100.

They are arranged in chronological order.

This photo book was prepared January 2026.
