Wheels of history

1985 to 2010

Bob Trubshaw

I am not especially interested in historic vehicles. But when they have been restored I find the details fascinating. And sometimes unrestored vehicles catch my eye too.

The square-format images which start this sequence were taken using a Mamiya C220 6 x 6 cm twin lens reflex on Ektachrome film. The next image was taken on an Olympus OM1N using Fujichrome ISO 100 film. The image taken at the (since demolished) Snibston Museum in 2003 was taken on a Kodak DC210 Plus digital camera. The rest were taken on Nikon D50 and D300 DSLRs.

This photo book was prepared January 2026.
